What is GATEWAY? Our Past, Present, & Future

OUR PAST: Since 1911, the Gateway Chamber of Commerce has been a steadfast advocate for businesses in Union County and beyond. Our legacy began as the Elizabeth Board of Trade, founded with the support of John D. Rockefeller and his Standard Oil company, which later became Bayway Refinery and now Phillips 66, was a key force in shaping the city of Elizabeth and the greater Union County region.

As the business landscape expanded, the Elizabeth Board of Trade evolved into the Elizabeth Chamber of Commerce, broadening its scope to address the diverse needs of Elizabeth's growing business community. Years later, recognizing the interconnectedness of neighboring communities, the Eastern Union County Chamber of Commerce was established to support businesses beyond Elizabeth, encompassing the eastern parts of Union County. This expansion fostered regional collaboration and economic development. As Union County's economy diversified, the need for a more inclusive organization led to the formation of the Union County Chamber of Commerce, which facilitated county-wide initiatives and policies to support business growth. In 2005, following a merger with the Central Jersey Chamber, we rebranded as the Gateway Regional Chamber of Commerce, solidifying our presence across Union, Middlesex, Somerset, and Essex counties.

OUR PRESENT: Today, known simply as the Gateway Chamber, we are a driving force for growth and collaboration across diverse industries, uniting Fortune 500 corporations, thriving mid-sized enterprises, and dynamic small businesses. This rich diversity fosters unparalleled networking, knowledge-sharing, and strategic partnerships that fuel economic success.

At the Gateway Chamber, our mission is to create MORE—more connections, more opportunities, and more value for our members. We deliver over 100 annual events, including high-impact networking, educational seminars, and community initiatives, all designed to help businesses thrive. Our expansive network provides members with exclusive cost-saving benefits, while our advocacy efforts champion policies that drive both local and regional prosperity. More than just an organization, we are a collaborative business community, dedicated to empowering success across Union County and the greater Northern and Central New Jersey region.

OUR FUTURE: The Gateway Chamber is focused on building a stronger future by expanding workforce education and development, helping businesses connect with top talent, and cultivating new strategic partnerships that drive innovation. We will continue fostering business and community collaboration, amplifying our impact across the region, and serving as a trusted resource and advocate for our members. Through growth, advocacy, and opportunity, we are shaping a thriving business ecosystem for generations to come.
